Local Service and Support

Belanger's comprehensive service and support give you peace of mind with your purchase. We stand behind our equipment with the most responsive service available through our nationwide Value Added Reseller (VAR) network. All our VARs are factory trained and certified installers and service technicians whose response times can be measured in hours, not days. These professionals are geared to respond to the "real world" service needs of our customers at any time.

**SIMPLE
 RELIABILITY
 HIGH
 PERFORMANCE**

Get Ahead of the Game

Whether you offer vehicles for rent, lease, or sale, the **insta-KLEEN's™** fast, superior wash will help your vehicles look their best and keep your customers coming back again and again. In addition, the **insta-KLEEN™** gives service centers the opportunity to outpace the competition by using vehicle wash and detailing as "value added" services that customers will remember and talk about. It is easy to add a conveyor, additional wash components, dryers, or chemical applicators to further expand your options.

Rugged and Simple

Built for heavy-duty use, the **insta-KLEEN™** delivers maximum performance with every wash. We use only the highest grade materials, like aircraft-grade aluminum, high-density plastics and state-of-the-art electronics, to ensure that your wash is up and running when you need it. The **insta-KLEEN™** system can easily take the punishment of washing large fleets of vehicles with consistent results every time.

The **insta-KLEEN's™** patented Porter-Proof design incorporates our bowling ball-topped Flex Head side wheels with full 360° range of motion, which minimizes damage to vehicles or equipment. There are no couplings, 3-piece shafts or U-joints to lubricate or break, which significantly reduces maintenance.

Photo eyes determine the size of each vehicle as it enters the **insta-KLEEN™** and calculate the precise amount of water and chemicals needed for optimum cleaning, giving you better control and minimizing consumables use.

The **insta-KLEEN's™** Equipment Control Center is literally a "backroom in a box," housing and integrating all of the support and control equipment, plumbing and valves, chemical metering and utility distribution into an orderly and user-friendly platform.

Optional Low Side Washer shown.

Big Power in a Small Package

The powerful **insta-KLEEN™** system can fit into the smallest of packages. A space just 14' wide (minimum) and 23' long (minimum) accommodates the entire system. You can even convert your existing pre-delivery bay!

Complete System, Complete Service

When you invest in the Belanger **insta-KLEEN™** system you invest in a complete fleet wash system with full installation and ongoing technical support. We provide technical assistance for site preparation as well as assistance to your architect regarding the local permitting

process prior to equipment arrival. Your local VARs coordinate with you, your trades people and representatives to ensure a smooth installation and proper wiring and plumbing of utilities. After installation, VARs perform a thorough inspection and provide familiarization, operation and maintenance training with your technicians upon request. VARs are with you every step of the way to ensure that your **insta-KLEEN™** system delivers peak performance for years to come.

Color-Safe Confidence

Belanger car wash systems are OEM approved for use on all vehicle colors and finishes, which means you can rest assured that you're getting the safest wash possible.

Simple Reliability High Performance

The **insta-KLEEN™** fleet wash system from Belanger has been engineered for continuous high performance, along with the potential for an additional revenue center. The only fleet wash system engineered with Belanger's patented Porter-Proof™ design, the **insta-KLEEN™** combines ultimate speed and simplicity with ease of installation and use. Gain the upper hand with the fleet wash system built for performance *and* simplicity.

Optional presoak arch shown.

Founded in 1969, Belanger, Inc. has long been respected as an innovator in car wash manufacturing. Belanger led the industry in pioneering the first equipment designed specifically for a soft cloth car wash and, more recently, the development of our exclusive soft cloth system, the Belanger Wave Car Wash System. Along the way, we have earned the reputation of being the most customer-focused, premier supplier of high-quality car wash equipment in the industry.

With approximately 100 patents to our name, our mission is to design, manufacture, sell and service vehicle wash systems that make our customers' lives easier and their businesses more profitable. We invest in research and development initiatives every year. When you buy Belanger products, you buy the company behind the name, too.
